

Rewriting the script

The 2006 Annual Conference and Exhibition of the Health Care Supplies Association, entitled 'Rewriting the Script', will be held from Thursday 2 to Saturday 4 November (breakfast and depart) at the Holiday Inn, Stratford-upon-Avon.

This will be the Association's 36th Annual Conference. Once again the Association has created a stimulating and topical event designed specifically for purchasing and supply professionals involved in the support of health care. Attendance is open to members and non-members working in the field of purchasing or supply, to other health care professionals and to representatives of companies who supply to the health care sector.

As in previous years the Association's 2006 Conference will provide a unique opportunity to explore key issues, all of which affect the provision and performance of health care purchasing and supply services. The conference programme will help delegates explore new opportunities, approaches and alternative ways of working which will assist them in achieving their goals.

Over the years the Association's Annual Conference has developed in content and reputation. Every year the high-quality debate on key issues attracts a capacity audience of members, other health care professionals and representatives of major supply companies from across the UK, and this year will be no exception. Speakers at the event will include Association President, Professor Christine Harland; Head of Innovation at Yorkshire Forward Regional Development Agency, Jim Farmery; and former Chief Executive of the NHS Purchasing and Supply Agency, Duncan Eaton.
