Web Portal Manager

up to £35,500

Home based in South East England

We are looking for a Manager to run an on-line procurement site aimed at local authorities and the suppliers who bid for their contracts.

You will be equally happy with the development and system administration of the site as you will be with promoting its use and expansion to local government bodies in the south east and their potential suppliers.

You can view the site at www.businessportal.southeastiep.gov.uk. It has been running for 2 years and has lots of potential for further development.

This post involves travel throughout the region and is suitable for home working from anywhere in the South East with broadband access. Job sharers welcome with or without partners. The post is funded until March 2011.

For informal discussion please contact Richard Tyndall 01344-351412

To apply please visit <http://powered.jobsgopublic.com/bracknell>

Closing Date Friday 21 November

Interviews Monday 1 December in Bracknell
